

BEWS LTD

01234 567890

We provide a wide range of door suites for both commercial and residential use. Our systems meet modern construction standards and are trusted by both designers and contractors alike

From automated commercial entrance doors to simple residential doors, BEWS offers a wide range of door suites to meet every need. Our systems comply with all modern construction standards.

BEWS window, door, and curtain walling systems share common components, ensuring compatibility and providing a visually appealing and cost-effective solution.

Commercial Doors

Our commercial shopfront system includes sections for both flush and bead glazed frames, with 100 x 45mm framing for both single and double doors. Choices include finger guard, auto swing, manual and automatic sliding, sliding folding, and rebated options.

Patio Sliding Door System

Patio door systems offer an innovative and practical alternative to traditional French or Folding Sliding Doors. Their narrow profile creates a striking removable wall, ensuring uninterrupted views of the outdoors.

Residential Doors

Our residential door range include rebate doors with sidelights and fan lights, sliding patio doors featuring narrow profiles for expansive views, and folding sliding doors engineered for seamless integration with outdoor spaces. The corner option facilitates compact stacking.
